

Dear Users,

We would like to remind you that the Life Science Imaging Centre (LSIC) under the Central Research Facility is currently offering free access for internal projects until 30 June 2026.

This complimentary service is made possible through generous support from the **Task Force on Overseeing the Use of Donation Received for Research in Chinese Medicine (TFD2023-P03)** which supported by Chan Hon Yin Couple Charity Trust and the **Strategic Development Fund (SDF22-0520-P02)**.

If your publication benefits from LSIC facilities, we kindly ask that you include the following acknowledgment statement:

*“The authors gratefully acknowledge the use of the Life Science Imaging Centre (LSIC) at Hong Kong Baptist University. Access to the Centre was supported by the TFD2023-P03 and SDF22-0520-P02.”*

Thank you for your cooperation in recognizing the support that makes these resources available to our research community.

Best Wishes,  
Life Science Imaging Centre
